

Education

- ~~**Tennessee College of Applied Technology**~~
~~*Computer Information Technology | 2024 - 2025*~~
 - **San Diego City College**
Refrigeration and Air Conditioning Systems | 2007
 - **Winfield City High School**
High School Diploma | 2003
-

Professional Experience

Electronic Technician

FedEx | Memphis, TN | October 2023 - Present

- Maintain and troubleshoot HVAC&R systems and industrial refrigeration equipment.
- Diagnose, calibrate, and repair climate control systems for optimal efficiency.
- Work with electrical schematics, hydronics, and pneumatic controls for HVAC systems.
- Conduct preventive maintenance to extend equipment lifespan and reduce downtime.

Maintenance Manager

MSS Steel Tubes | Memphis, TN | February 2023 - October 2023

- Managed HVAC, refrigeration, and facility maintenance operations.
- Developed and executed preventive, predictive, and reactive maintenance programs for climate control systems.
- Maintained CMMS work orders and documentation to improve service tracking.
- Trained and mentored technicians in HVAC&R maintenance and troubleshooting.

Maintenance Supervisor

Von Drehle | Memphis, TN | June 2022 - February 2023

- Supervised maintenance operations, including HVAC and compressed air systems.
- Led engineering projects to optimize refrigeration efficiency and air quality control.
- Built and developed a high-performing maintenance team through training initiatives.

Mechanical Reliability Technician

Kruger Tissue Group (KTG USA) | Memphis, TN | September 2012 - February 2022

Eric Sandlin
4080 Kayley Lane
Olive Branch, MS. 38654
sandlin.eric@yahoo.com | (443)440-2115
<http://www.eric sandlin.com>

- Repaired and maintained industrial refrigeration systems and climate control units.
 - Diagnosed mechanical issues and fabricated precision parts to restore HVAC&R functionality.
 - Maintained air handlers, chillers, and cooling towers to ensure efficient operation.
 - Conducted inspections and safety compliance checks for HVAC and refrigeration systems.
-

Military Experience

United States Navy | Machinist's Mate | E-5 | 9 Years 2 Months Active Service

Engineering Lab Instructor

U.S. Naval Academy | Annapolis, MD | January 2010 - September 2012

- Trained junior sailors in HVAC&R systems, boiler operations, air compressors, and water distillation.
- Delivered instruction on refrigeration cycles, pump operations, and thermodynamics applications.
- Developed engaging, interactive lessons for over 250 students.

USS Kitty Hawk & USS George Washington

Yokosuka, Japan | July 2003 - February 2010

- Operated and maintained HVAC&R and mechanical systems aboard naval vessels.
 - Led repair and maintenance efforts for shipboard refrigeration and climate control systems.
 - Provided training and mentorship to junior sailors on HVAC&R operations.
-

Certifications

- **Universal EPA CFC/HCFC Refrigerant Processing Certificate**, 2007
- **Mobile Air Conditioning Society Worldwide** – CFC-12 Refrigerant Recycling & Service Procedures, 2007
- **Department of Labor Apprenticeship Certification** – Refrigeration Mechanic (Any Industry), 2012
