

Education

- **Tennessee College of Applied Technology**
Computer Information Technology | 2024 - 2025
 - **San Diego City College**
Refrigeration and Air Conditioning Systems | 2007
 - **Winfield City High School**
High School Diploma | 2003
-

Professional Experience

Industrial Maintenance Technician

FedEx | Memphis, TN | October 2023 - Present

- Maintain and troubleshoot industrial electrical and mechanical systems.
- Diagnose, repair, and optimize automated systems, conveyors, and motors.
- Work with PLCs, hydraulics, pneumatics, and industrial control systems.
- Interpret and apply blueprints, schematics, and technical documentation.

Maintenance Manager

MSS Steel Tubes | Memphis, TN | February 2023 - October 2023

- Led maintenance teams in optimizing machinery and reducing downtime.
- Implemented preventive, predictive, and corrective maintenance strategies.
- Managed spare parts inventory and oversaw CMMS for work order tracking.
- Trained technicians in troubleshooting and equipment operation.

Maintenance Supervisor

Von Drehle | Memphis, TN | June 2022 - February 2023

- Supervised maintenance teams and assigned work orders efficiently.
- Led engineering projects to improve equipment reliability and efficiency.
- Optimized air compressor systems, reducing energy costs and condensate issues.

Industrial Mechanic

Kruger Tissue Group (KTG USA) | Memphis, TN | September 2012 - February 2022

- Repaired and maintained production equipment, pumps, and gearboxes.

Eric Sandlin
4080 Kayley Lane
Olive Branch, MS. 38654
sandlin.eric@yahoo.com | (443)440-2115
<http://www.eric sandlin.com>

- Diagnosed mechanical failures and fabricated precision components.
 - Worked extensively with industrial packaging machinery and automation.
-

Military Experience

United States Navy | Machinist's Mate | E-5 | 9 Years 2 Months Active Service

Engineering Lab Instructor

U.S. Naval Academy | Annapolis, MD | January 2010 - September 2012

- Instructed junior sailors in mechanical systems, HVAC&R, and hydraulics.
- Conducted hands-on training in pump and valve maintenance.
- Designed and delivered technical courses for over 250 students.

USS Kitty Hawk & USS George Washington

Yokosuka, Japan | July 2003 - February 2010

- Operated and maintained shipboard mechanical systems, including steam turbines and pumps.
 - Led repair efforts on critical propulsion and auxiliary equipment.
 - Trained and mentored junior sailors in maintenance procedures.
-

Certifications

- **Department of Labor Apprenticeship Certification** – Industrial Mechanic (Any Industry), 2012
- **Universal EPA CFC/HCFC Refrigerant Processing Certificate**, 2007
- **Mobile Air Conditioning Society Worldwide** – CFC-12 Refrigerant Recycling & Service Procedures, 2007
